

## *Dr Evian Gordon PhD, MD.*

BSc, Hons,  
PhD, MD.

Over 20 years'  
experience in  
"Applied  
Integrative  
Neuroscience"

- **Founder and Chairman Brain Resource Company and TotalBrain (2000).** **Founder of the largest standardized International Brain Database.** Scientific Chairman and Founding Director, The Brain Dynamics Centre, Westmead Hospital. Director of BRAINnet.net.
- Principal Investigator of the first study (iSPOT) to predict treatment response in Depression. Over 250 peer-reviewed scientific publications. H-Index of over 70. Recipient of the inaugural Royal Societies Eureka Prize for **Interdisciplinary Scientific Research** (2003).
- Published the **first book on Integrative Neuroscience**, titled: "Integrative Neuroscience: Bringing together biological, psychological and clinical models of the human brain" (Harwood Academic Press: London, 2000).
- **Brain Database:** Over 1 million Datasets from 6-100 years of age and in 10 Brain Disorders and **over 40 leading US Corporates (including Boeing, AARP, Cerner).** The diverse measures of the brain reflect: Cognition and Emotion; Screening for mental illness; Genetics, Brain Structure and brain function (EEG, ERP, fMRI).
- Over 300 scientists and 300 publications are linked to the BRC International consortium and over 250 projects in the USA, Europe and Australia use the International Database via the independent U.S. Foundation **BRAINnet.net.**

This confluence of differentiating IP has been integrated into a single platform ([TotalBrain.com](http://TotalBrain.com)) for online brain assessment, training new brain habits and monitoring what works best in behaviour change.
